Options and Discussion Factors for the Edentulous Arch

About the Speaker: Matthew Hallas, DMD

Dr. Matthew Hallas received his doctor of dental medicine from Tufts University School of Dental Medicine in Boston, Massachusetts. After graduation, he continued his education at University of Illinois at Chicago (UIC) - College of Dentistry, completing a 36-month residency in prosthodontics in which he received extensive training in restorative and surgical therapies.

Dr. Hallas is an active member in both the American College of Prosthodontics and the Academy of Osseointegration. He has written several articles and has had several implant-patient therapies published. Dr. Hallas practices full time at Bay Lakes Center for Complex Dentistry in Green Bay, Wisconsin.

COURSE SUMMARY

Providing a practical guide to the rehabilitation of the edentulous arch, this advanced course highlights in detail the principles and restorative concept of the All-on-4[®] treatment concept as a straightforward, standardized treatment option for edentulous arches, and its integration into the practice.

This course is designed for experienced clinicians who want to expand their treatment options for edentulous indications.

LEARNING OBJECTIVES 3 CE Credit Hours

- Understanding the rationale and evidence supporting the All-on-4[®] treatment concept.
- Learn how to identify the right patient.
- Understand the presurgical work-up.
- Properly convert existing denture to a fixed temporary prosthesis.
- Understand the final prosthetic options.
- Guide the patient through long-term health with the All-on-4[®] treatment concept.
